

METHODOLOGY OF THE ENTREPRENEURIAL DISCOVERY PROCESS

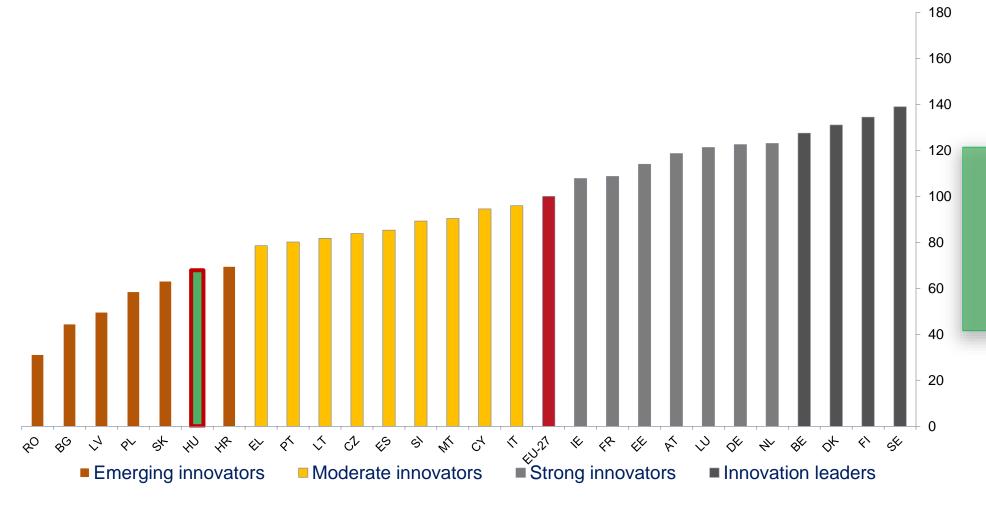

EXPERIENCES IN HUNGARY

István Szabó PhD

vice president for science and international affairs
National Research, Development and Innovation Office

Ranking of EU members: European Innovation Scoreboard, 2021

Strategical aim: to be a strong innovator by 2030

GERD/GDP ratio (%)

Strategical aim: 3% GERD/GDP in 2030

The essence of S3

Recognize strengths, competitive advantages and potentials

Defining specialization priorities with local actors

Eligible condition of EU funds in 2021-2027

Monitoring, evaluation and feedback

Responsible body for planning and implementation:

National Research, Development and Innovation Office

4

S3 strategic framework 2021-2027

National Digitalisation Strategy

- improve the digital readiness of SMEs
- increase the integration of digital technologies in the economy
- targeted development of ICT sector, esp. start-ups

National RDI Strategy

- create
- transfer
- utilize >
- > KNOWLEDGE

National SME Strategy

- strengthen the valuecreation of enterprises with high-growth potential
- stable and predictable framework for the whole SME sector

The application of EDP methodology

interactive

bottom-up process

involvement of actors from different sectors (quadruple helix model)

- articulating market niches and local businesses' needs
- identifying potential strengths and opportunities for policy- and decision makers

S3 EDP methodology for the period of 2014-2020

methodology defined by the EC

S3 county level workshops + questionnaires

involvement of local RDI ecosystem actors

two different rounds on county level

- √ 3 national specializations
- √ 6 sectoral
- √ 2 horizontal national priorities

Lessons learned from the previous period (2013-2020)

Importance of governance during the design and the implementation phases

EDP: substantial and extensive involvement of stakeholders

Implementation of S3 priorities in Calls for Proposals

The importance of interim monitoring and feedback

Management of priorities

Awareness of stakeholders and communication during design and implementation

A new approach of EDP prioritization

Key Finding

Sectoral and too broad priorities, without defining directions of real specialisation in 2013-2020

2021-2027

better targeted priorities focus on socio-economic-technological strengths and challenges

Preamble of EDP

National Innovation Forum (2019)

- 25 locations
- 2500 stakeholders
- Accompanied by online consultation

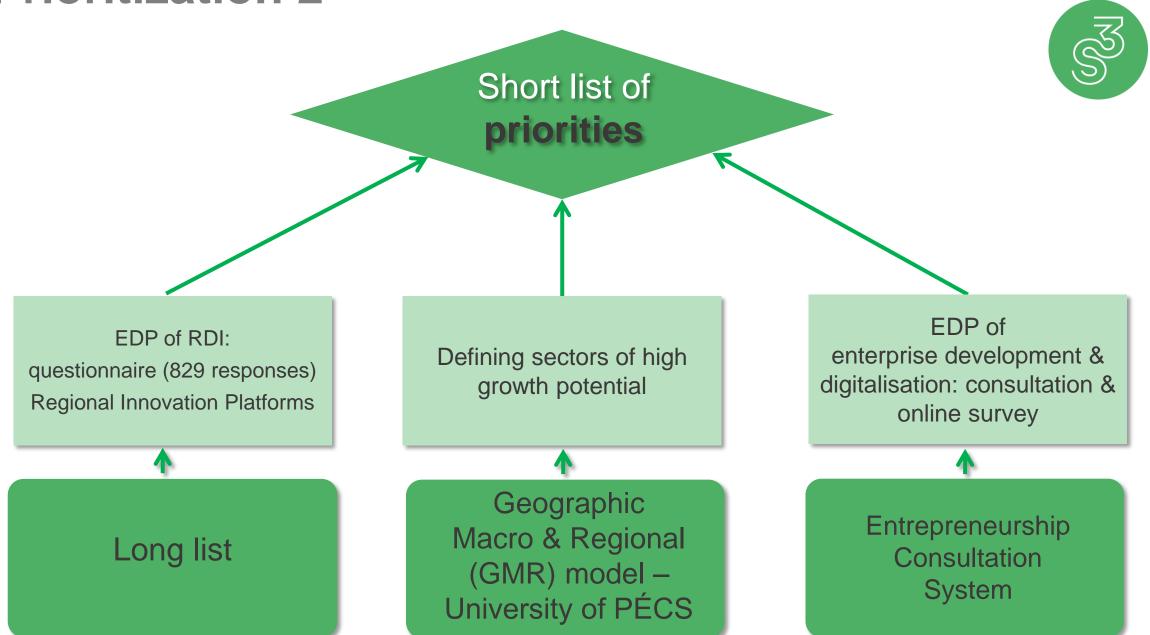

Prioritization 1: Developing the long list of priorities

Prioritization 2

EDP: Regional Innovation Platforms and survey

Regional Innovation Platforms (RIP)

8 venues 1100 participants

S3 survey

2300 respondents829 filled completely

University of Pécs Regional Innovation Platform

- Established in 2019
- Closer cooperation with the university or the innovation stakeholders of the region
- Joining is free of charge
- New initiative in 2021:
 Partner search for cooperation is launched in the field of development of antimicrobial agents

Prioritization 3: validation

Representative horizontal organizations

STAKEHOLDER VALIDATION

Online questionnaire 106 organisations

ADMINISTRATIVE VALIDATION

Relevant public administration actors

FINAL S3 PRIORITIES

Chambers & business associations

Final priorities

VERTICAL

agriculture, food industry

health

digitalization of the economy

creative industry

resourceeffective production

energy, climate

services

HORIZONTAL

university and public sector innovation

training, education

EDP in the implementation

Follow up on the EDP

Follow up of the cooperation among governmental actors

Feedback to governance, RIPs and EDP actors
